

Transportation Engineering Services

About Us

Cumbey & Fair has more than 34 years of experience on a broad range of Transportation projects. Our services are custom tailored to address project-specific needs such as: drainage, access management, right-of-way determinations and bicycle and pedestrian routes, etc. Our Firm is qualified and prepared to take a project from concept to final construction inspection. In addition three members of our Transportation Staff are certified with the Florida Department of Transportation in Advance Traffic Control.

Our firm's project experience ranges from small intersection improvements to major roadway design. We can provide services from PD&E into design and through the construction phase. We are able to accomplish all aspects of your transportation needs.

Our firm is qualified and prepared to take a project from first concept to final construction inspection.

Our clients include the Florida Department of Transportation, various Counties and Cities and private clients involved in roadway improvements.

We offer state-of-the-art technological capabilities for producing construction bid documents. This enables our firm to anticipate challenges and develop plans to serve our clients in an efficient manner. It also allows us to produce a quality product within client budget and schedule constraints.
